

Pye Green Academy Sport Premium Funding 2019/20 - Impact Report

Sport Grant Year 2019/20 - £19,540 Approximate spending **£ 17,713.50**

(£1,826.50 carried over to 2020/21)

Due to COVID19, the spending of the Sport Premium has been slightly different this year and hasn't been fully spent. The impact is not able to be fully evidenced and most shown in the report is from September 2019 up until School Closure March 2020. All competitions and dance events etc. that we were due to take part in were cancelled in the Spring term and obviously none took place during the Summer Term. We have however, still been involved with School Games, participated every week in the Cannock and Rugeley District virtual competitions as well as the Staffordshire and Stoke on Trent District virtual events. We have received certificates in acknowledgement of this and many children placed within the top 3 in the Cannock and Rugeley district results.

A Key Skills Progression Grid for PE across the whole school has been produced this year as well as detailed Year Group Coverage documents. The aim was to follow these from Sept 2020 but this may have to be altered do adhere to COVID19 guidelines.</p> <p>Each year group managed Team-teaching sessions with Tom before School Closure. This has also once again proved very successful and the improvement in teaching and learning of PE can be seen in the children's ability, motivation and increased success. Confidence, understanding and subject knowledge has continued to increase with staff.</p> <p>The Supercoach Programme has again been successful this year highlighting the continued development of children in school since its implementation. This has involved a consistent sports coach working in school for 2 mornings and lunch times each week. Results of previous assessments have led to interventions with certain pupils in target areas. The Supercoach programme has also identified key areas for the school to develop upon next year.</p>

Many children had had little exercise and activity at home and some parents were concerned about weight gain. Interventions with these children who were in school and returned to school from June helped to address this. It also helped them to settle back into school and helped with anxiety and mental health.</p> <p>There is still a huge improvement in the children's attitude towards PE and kit is generally remembered. PE has been given a higher status with the opportunity of having regular external coaches. Tom and Alex are now seen as being part of our school by children, staff and parents. Tom and Alex have also coached teams ready for tournaments. The success of the Supercoach programme and team teaching has been evidenced through ongoing discussions with staff, pupils and coaches, observations and pupil participation and attainment levels. Each year group also evidences PE sessions with photos and videos.</p>
